

K-love radio has served my family and I for nearly eight years here in Yuba City. K-love supports wholesome values and has a positive impact on tens of thousands of people in this area. Without this family friendly programming the public will lose the love, prayer, support and encouragement of this station. We just do not have positive influences on the airwaves that K-love provides. My family and friends need K-love radio now more than ever. Please reconsider the changes that would affect K-LOVE Radio. Thank You
